ex.-Sgt. Leonard Matlovich

"BE PROUD OF WHO AND WHAT YOU ARE"

On Friday, March 26, ex.-Sgt. Leonard Matlovich gave a talk concerning "The Gay Drive for Acceptance."

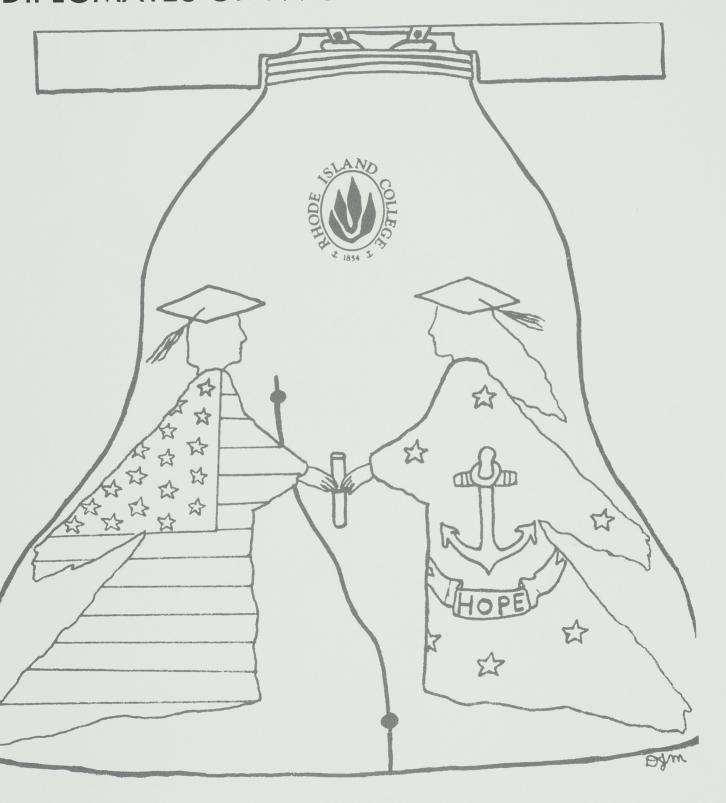

"Be proud of who and what you are, stand up for your ideals," was the theme of Mat's talk. To refresh your memory, Mat was discharged from the air force on the grounds of homosexuality. Some say he shouldn't have revealed his tendencies until his retirement, which was only eight years away. But he just couldn't stand it — he was telling his students to stand up for what they feel, but he wasn't doing it himself. Therefore, he informed his superior of his life style; and discharge commenced.

Mat doesn't condemn the system, but he owes everything he is and will hope to be, to the U.S. Air Force. However, you can receive a medal for killing two men and a dishonorable discharge for loving one. He and his lawyer, plus those who are for his cause, know no such word as defeat. Mat believes he has to live his life for himself, not what others want or think it should be. He also stressed that the gay movement will not be a success without a "straight" face.

The Declaration of Independence was written for all those who set foot on U.S. soil — equality for all, this is Mat's bible, and it should be the bible and basis for everyone's existence, ideals, and thoughts!

I have always felt that the moment when first you wake up in the morning is the most wonderful of the 24 hours. No matter how weary or dreary you may feel, you possess the certainty that, during the day that lies before you, absolutely anything may happen. And the fast that it practically always doesn't, matters not one jot. The possibility is always there.

In Memoriam THEODORE LEMESHKA

(1917-1976)

"To live in hearts we leave behind, Is not to die."

Campbell

We, of the Class of 1976 at Rhode Island College, wish to honor the memory of Theodore Lemeshka, who passed away in January of this year.

Mr. Lemeshka was a well-loved professor of biology who was dedicated to his students. He had served Rhode Island College for twenty years prior to his passing, and he was held in high esteem by both faculty and students alike. In 1956 he initiated microbiology with one small class of students; at the time of his death, he was teaching well over 300 students per year in microbiology in a new building with modern, up-to-date laboratory facilities. Mr. Lemeshka was a man of enormous drive who not only confined his energies to the college life but to community leadership as well.

It was a privilege to know Mr. Lemeshka, and he will always live in our minds and hearts. He was a teacher who was truly concerned for his students

and the world around him.

Theodore Lemeshka

DEDICATION

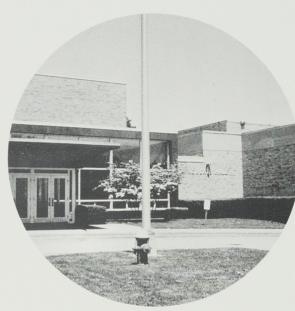

The Class of 10% at Rhode Island College wishes to dedicate their Bicenten nial edition of the class yearhook, EXODUS, to the people of the State of Rhode Island. During the two-hundredth anniversary of our country, it is fitting to give thanks to those citizens who have been instrumental in the education of our country's youth.

Since its inception in 1854, Rhode Island College has educated many men and women and has grown from a single-purpose institution to one that is educating people for the many careers of roday's world. During the years between 1972 and 1976, the present graduating class has witnessed the construction of the fullequipped Fogurty Life Science Building, a new dining facility, and the implementation of several new curriculums of study. Voters also approved an extension to Adams Library which is currently under construction.

Rhode Island College would not be possible without the support of the people of Rhode Island. They have shown us that they are sincerely interested in the higher education of both young and old. The Class of 1976 thanks all Rhode Islanders for the aid and encouragement which they have demonstrated in the cause of education for 122 years.

LETTER FROM THE EDITOR BY

As the Bicentennial year quickly approaches, it gives me great pleasure to present to the R.I.C. community the Bicentennial Edition of the 1976 Exodus. This year's theme is quite evident to those of you who have already howeast through the pages and I'm sure the combination of sudent activities and campus life combined with the Bicentennial theme helps to make this year's Exodus a successful story, both of student progress as well as summing up our nation's 200 years of nonerros.

As Editor of the Yearbook, I found the job as being somewhat time consuming, yet quite rewarding. My encounter with various people made my job both easy and hard at the same time and these encounters are something that I WILL INEVER PORGET!

The degree of participation from students and faculty outside of the Yearbook staff is some thing which must be commended because they made my job, as well as the rest of the staff's much more cast. This type of interaction between faculty, students, and the Yearbook staff is important in publishing something which the graduating senior can always look back upon and its symbolize the ability of man to work with fellow man, something which has shaped this nation in reaching in Yorks back-like.

For those people who feel they have been left out of the Yearbook due to time factors or space factors, accept my apologies because only so much can be accomplished in so short a time.

Overall, I feel we have accomplished what we had set out to do when I took the responsibility of this Edition of the Exodus, this being to portray students, faculty, and staff as they really are. There is nothing false about the people in the 1976 Exodus, neither do we attack anyone, we simply, "TELLIT IKE IT IS"

The dedication of faculty and students along with their involvement is something a camera cannot capture, these are inner things. The camera only captures our outer character.

My personal dedication is to those people who have made the Yearbook a success. The reality of the 1976 Exodus is as real as the Bicentennial itself

And so in closing I would like to salute the people who have made a dream a reality.

To the R.I.C. Community and the Nation on her 200th birthday Congrapulations!

my Friedman

Good Luck to the class of 1976, and until next year, Enjoy
